Project dedicated public website

d5.2

Document Details

D5.2	Project dedicated public website		
Project	OPADE GA 101095436	Start Duration	1 December 2022 54 Months
WP number	WP6	Lead Beneficiary	BioKeralty
Dissemination level	PU	Type	DEC – Websites, patent filings, videos, etc.
Due date	M6		
Filename	D5.2 Project dedicated public website		

Document History:

Release	Date	Reason for Change	Status ¹	Distribution
0.1	2/05/2023		Draft	
0.2	30/05/2023		In review	
1.0	31/05/2023		Final version	

Deliverable Contributors:	Name	Organisation	Role / Title
Deliverable Leader	Catalina Martínez	BIOKERALTY	WP5 Leader
Contributing Authors	María Villar	BIOKERALTY	Project Support
Reviewers	Corrado Vecchi	EBRIS	Project Coordinator
	Gerardo Attianese	EBRIS	CFO (Chief Financial Officer)
	Alessandro Melillo	EBRIS	Project Support
	Marianna Vigorito	EBRIS	Project Support
	Adelaide Serretiello	EBRIS	Project Support
	Giovanna Scognamiglio	EBRIS	Project Support
	Giulio Corrivetti	EBRIS	WP1 Leader
	Lisa Chiang	CEPHALGO	WP2 Leader
	Kaia Palm	PROTOBIOS	WP3 Leader
	Mattia Marco Caruson	MAMAHEALTH	WP4 Leader
	Alessandro Melillo	EBRIS	WP6 Leader

Disclaimer

OPADE is a project that has received funding from the European Union's Horizon 2022 TOOL-11-01 research and innovation programme under Grant Agreement No 101095436. 2. Executive Summary

This deliverable provides a summary of the main aspects of the OPADE research project website.

The OPADE website serves as a comprehensive platform, offering current information and resources related to the study. The content is organized in a clear and user-friendly manner, with the aim of reaching both researchers and mental health professionals, as well as the general public.

Essentially, the OPADE website is a comprehensive tool that offers up-to-date information, resources, and findings pertaining to the study. Its main objective is to raise awareness of the project, to promote collaboration, transparency, and the dissemination of knowledge in this critical field of mental health.

3. Description of tasks

Task 5.1 Communication strategy development.

The creation of the OPADE website is one of the subtasks of Task 5.1. The corporate image presented in D5.1 Dissemination, communication & exploitation plan has been used for the development of the website.

4. Structure of the website

The OPADE website is the central tool for communication and dissemination of the project. It provides information about the project and will post news and results. It also serves as a point of contact between the project and all external agents (researchers, patients, and any others) who wish to get in touch, either by email, by filling in a form or by following us on social networks. The website can be accessed from the following link: <https://opade-project.eu/>

The structure of the website is divided into different sections. Some of them show information about the project (Home, Project, Partners, Project impact), others (News, Material) provide information about the project news and documents/guides/brochures accessible to the general public. The means of contacting the project include the Contact section, where a message can be sent or an email can be sent to the email address set up for the project (info@opade-project.eu) and the social networks (Twitter and LinkedIn). The legally obligatory contents (Legal notice, Privacy policy and Cookies policy) are also included.

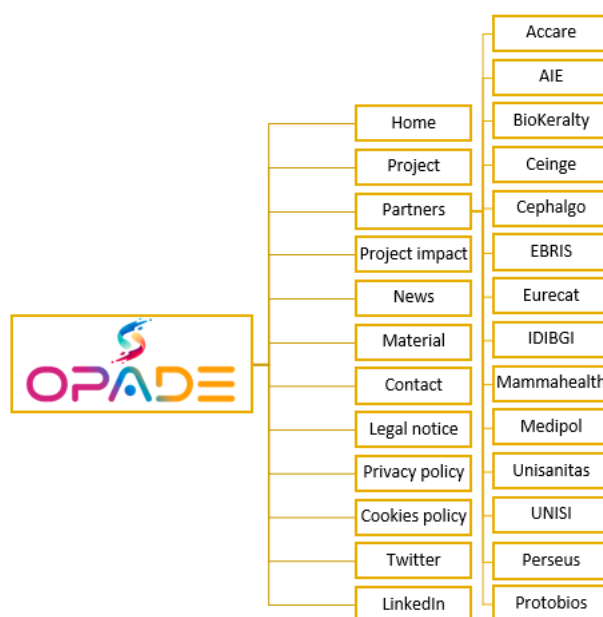

Figure 1. OPADE website structure

The header contains the OPADE logo and the logo indicating that the project has been funded by the EU.

Figure 2. OPADE website header

The navigation bar, which is visible at all times, provides access to the various sections. The Legal notice, Privacy policy and Cookies policy (mandatory GDPR compliance), as well as links to social networks and contact details are located in the footer, as well as the number of the Grant Agreement.

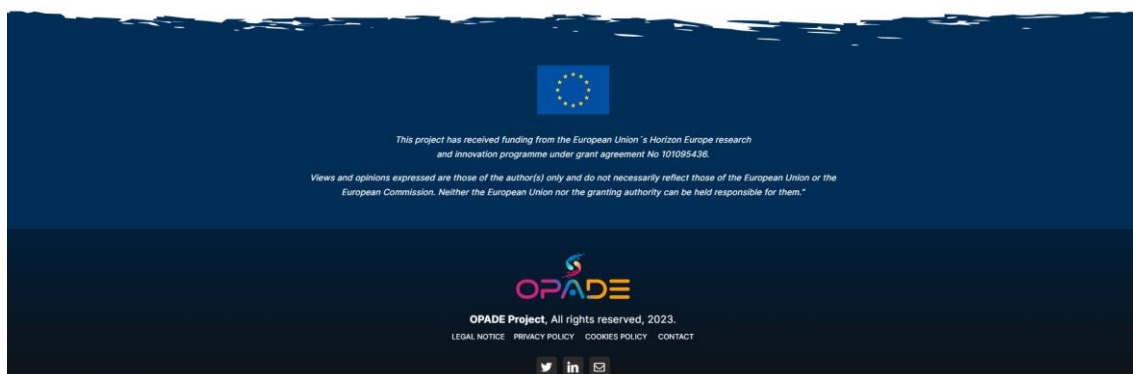

Figure 3. OPADE website footer

5. Web content

5.1. Home

This is the gateway to the OPADE website. It includes a brief summary of the problem faced by the research project and how it intends to solve it.

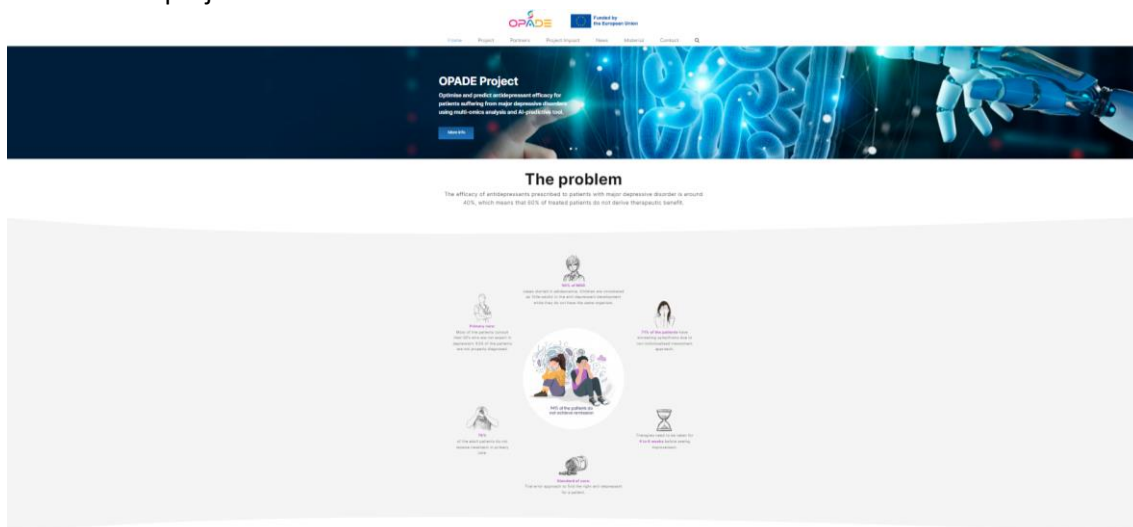

Figure 4. Home section of OPADE website

5.2. Project

It includes a description of the project and the objectives to be achieved.

Figure 5. Project section of OPADE website

5.3. Partners

It includes a list of the 14 partners, a description of each one and their contribution to the project. Also links to the website and social networks of each partner.

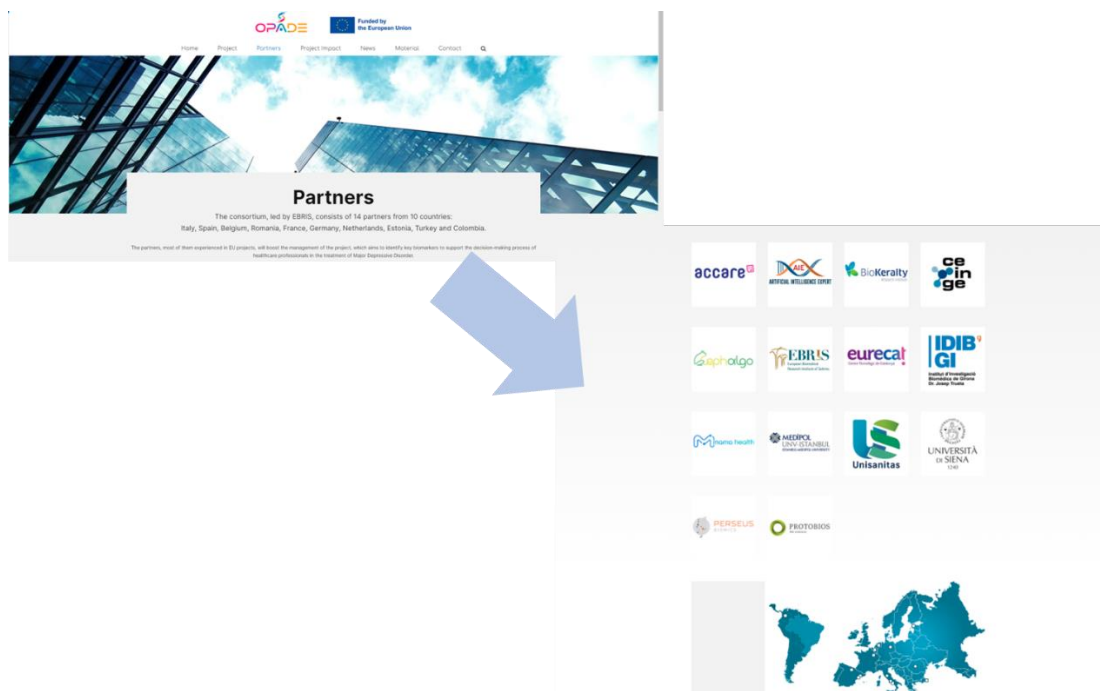

Figure 6. Partners section of OPADE website

5.4. Project impact

It explains how OPADE contributes to improving the quality of life of people with major depressive disorder, their families and to facilitating the work of the professionals who treat

them.

Figure 7. Project impact section of OPADE website

5.5. News

All news about the project will be posted here.

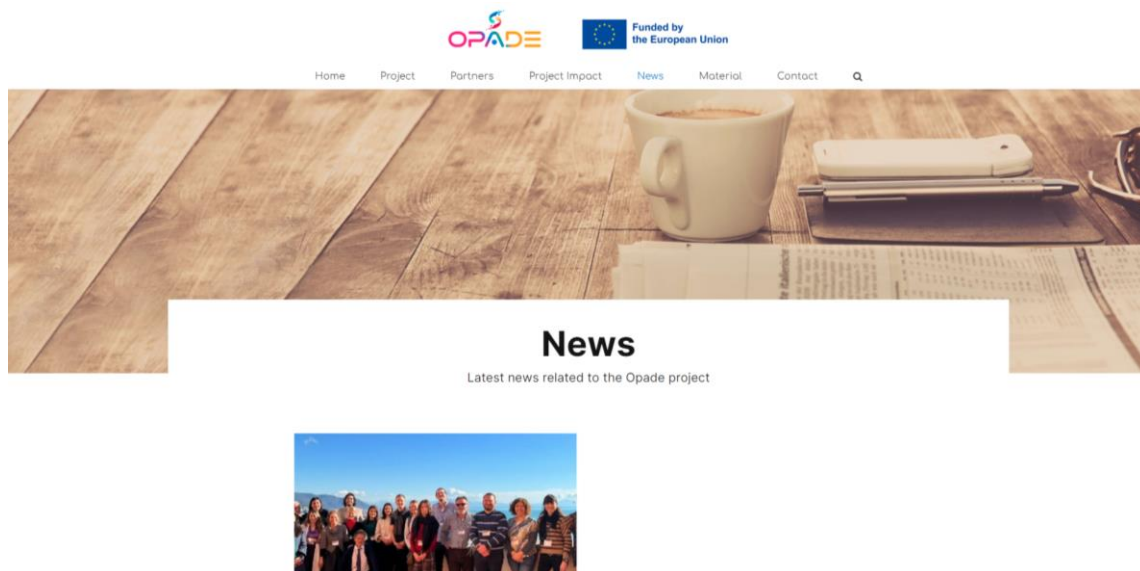

Figure 8. News section of OPADE website

5.6. Material

This section shall include documents, guides and other material accessible to the general public.

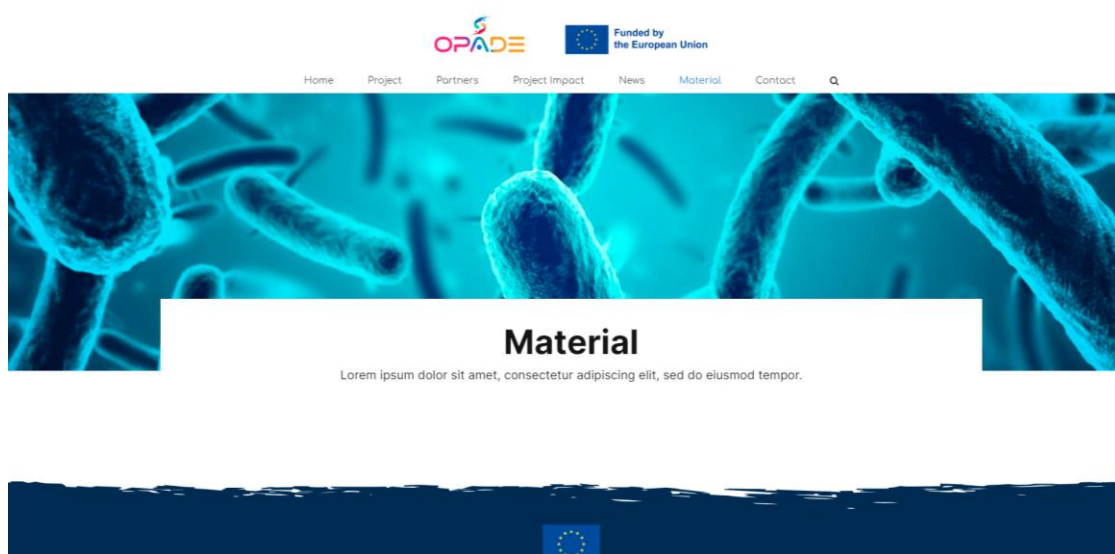

Figure 9. News section of OPADE website

5.7. Contact

Visitors to the website can contact OPADE by filling in the form created for this purpose in this section, or they can contact OPADE using the project's email address: info@opade-project.eu

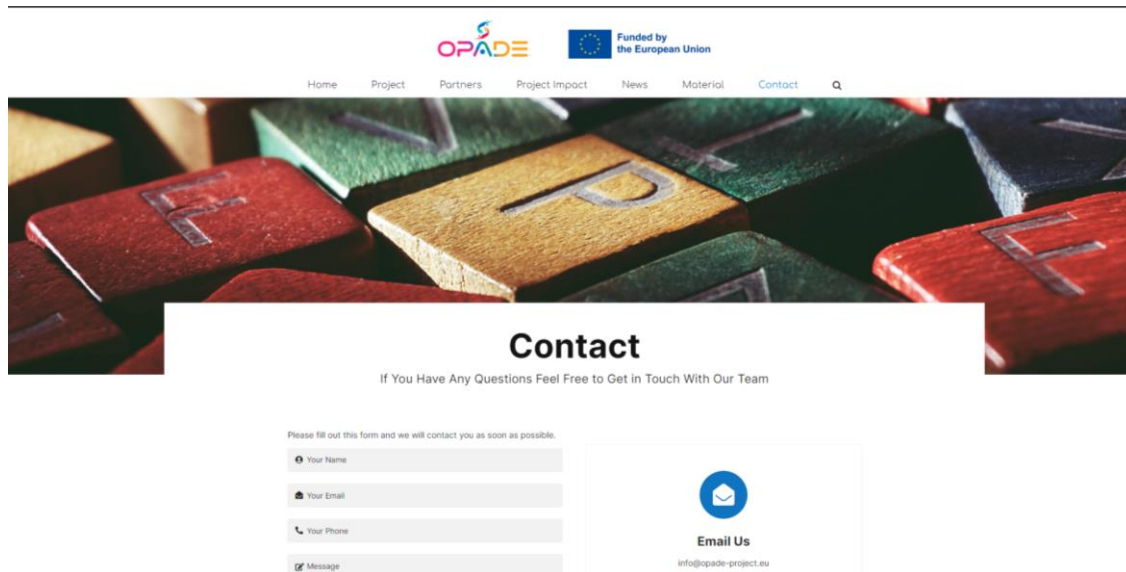

Figure 10. News section of OPADE website

5.8. Favicon

OPADE has included a "favicon" in its website. A favicon is a small image or icon that is displayed next to a website's URL in the browser's address bar, as well as in browser tabs and bookmarks. For this purpose, the small symbol that appears above the letters "OPADE" in the logo has been used. This symbol has all the colours of the corporate image of the project.

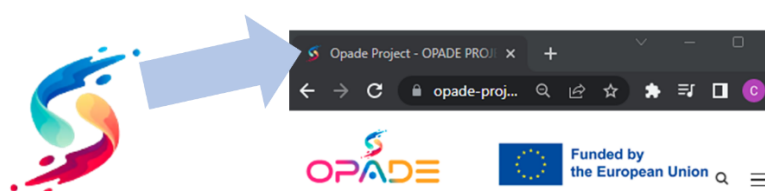

Figure 11. Different views of the OPADE favicon

This favicon allows users to easily identify our website among several tabs open in the browser. Having been well designed and consistent with the corporate image, it conveys a professional and reliable image, which generates greater confidence among website visitors. It reinforces branding and strengthens brand consistency at all points of contact with the user. This contributes to building a strong and cohesive brand image. In addition, it improves the user experience

5.9. SSL certificate

The OPADE website has a Secure Sockets Layer (SSL) certificate, a digital certificate that guarantees the authenticity of the website, which means that the website is represented truthfully and visitors will find the content they expect. SSL encrypts communication between computers while the communication is in transit. Basically, once the receiving party takes possession of the communication on a web page or in their email inbox, they can read it. If someone intercepts the SSL-certified communication while it is in transit, it will be unreadable and meaningless.

This certificate indicates that any data transmitted between the website and its visitors will remain private and secure. This means that the website provides visitors with encryption designed to prevent hackers - or any other unwanted third party - from stealing their sensitive information, especially information that could lead to identity theft.

6. Deviation from the workplan
